KARL H. BULL - Editor.

FRIDAY, MAY 10, 1917.

THE MODERN JUDAS.

The best example of the modern Judas is probably exemplified in the sly, lazy, cowardly, political mongered and boss-owned editor of the gang organ, who would rather print and circulate a lie in defense of his fellow-members of the plunderbund crowd, than to tell the truth.

As a liar in the newspaper profession, he probably is without a peer, and would be admitted into any Ananias society with out further recommendation. Without regard for principle, or recognition of honest purpose, or conception of right thinking, he continues the role of a knavish fool to mislead and deceive the people of the community to protect those

That a man could be so bound, hide and soul, to a lot of political degenerates, who thrive at the public's expense, is more than most men can imagine. The part of a penny-dog with a string to his neck following his master is the proper portrayal of the Boss and his political pimp, Judas.

The exhibition in the gang organ last week of the tax paid by certain property owners is the rawest effort to manufacture a lie of which we have yet heard.

The "Boss" proved no better at the job than did the editor and both have another visit to the county capital to set themselves right. The trips of such men to Xenia to secure the release of our violators of the Beal and boot-legging laws and the organ charging the public for space to defend the home against the most skeptical that many of the wolves are masquerading in sheep's clothing.

PATENTS

Copyrights, and Trade-Marks obtained and all Patent business conducted for MODERATE FEES.

Our Office is in proximity to U. S. Patent Office and we are able to give you the best of service.

Send model, drawing or sketch, with description. We will advise you of the patentability of your invention. If patentable we will prepare and prosecute your application for a patent.

Belt Buckles and Back Combs You Haven't Seen

This week has brought us a number of styles and shapes that will interest you if you want something entirely new. Buckles are to be worn extensively this season, and we are showing them in gold-filled, plain and chased; silver engraved; and some imported ones exquisitely enameled, in different colors.

Prices, \$1.00 to \$6.00.

Back Combs will not be so elaborate this season as last, and we are prepared to meet your desire with many of the more modest designs.

Combs \$1.00 and up.

Buy where you are sure of quality and style.

C. C. FRIED & SON,
6-9 East Main Street, Springfield, Ohio.

The Genuine "1847 ROGERS BROS."

Spoons, Forks, Knives, etc.

have all the qualities in design, workmanship and finish of the best sterling silver, at one-fourth to one-eighth the cost.

Much of the sterling now on the market is entirely too thin and light for practical use, and is far inferior in every way to "Silver Plate that Wears."

Ask your dealer for "1847 ROGERS BROS." Avoid substitutes. Our full trade-mark is "1847 ROGERS BROS." look for it. Sold by leading dealers everywhere. Before buying write for our catalogue "C-1."

INTERNATIONAL SILVER CO.,
MERIDEN BRITANNIA CO., Meriden, Conn.

Nagley Bros. have a new up-to-date delivery wagon.

Frank Gillaugh of Dayton spent Sabbath here.

Mrs. Sarah Mitchell visited Dayton relatives this week.

Mrs. Walter Hill returned from Cleveland, Ind., Thursday evening.

Mrs. Esta Ross and children of Xenia have been visiting relatives here.

Miss Pearl Dean had for her guest Sabbath, Miss Ida Notestrom of Dayton.

Richard Alexander and family of Dayton spent Sabbath with Mrs. Julia Alexander.

Miss Effie Conley's school in Beaver Creek township has been closed for the year.

Mrs. J. W. Dixon and children have been visiting relatives in Chillicothe this week.

The junior class of the high school banquets the Seniors tonight at the Foster House.

Miss Robt. Bird and daughter Mary, have returned home after an extended visit through the west.

A Bradford sold the Helen Kelsey property in Jamestown Thursday to Mrs. Blanch Starkey for 1,700.

Mrs. Sidney Smith, daughter, Thelma, and Miss No Buzzard are visiting C. H. Gillaugh and family of Dayton.

The Barnum & Bailey circus in Springfield Wednesday and Dayton Tuesday drew many from this place.

Miss Louise Smith is visiting Mrs. Russell and Miss Donahue of Cincinnati. She will be with them about one week.

The alumni banquet of the Clifton High School will be held in the K. of P. hall of that place on Wednesday evening, May 23.

The Clark's Run school of which Miss Mary Robbins is teacher will enjoy a picnic on the school grounds next Wednesday.

Miss Marie Ervin of Pittsburg, whose illness we mentioned last week, has been taken to the hospital in that city for treatment.

Misses Martha Blomgren and Mary Bradford have each been re-elected as teachers in the Fairfield schools for the coming year.

Commencement takes place next Friday night. The baccalaureate sermon will be delivered by Rev. O. H. Milligan in the opera house Sabbath evening.

Miss Elsie Harrison left this week for Alexandria, Ind., where she will make an extended visit with her uncle, Prof. Gamble, of that city.

The young folks of the R. P. church gave a reception at the church parlors Thursday evening for the college students and faculty.

The party who exchanged umbrellas with Arthur Auld at church Sabbath night can bring same to the Herald office and get their own.

Miss Lillie Stewart and Belle Winter saw Maud Adams in "Peter Pan" in Columbus last Saturday. While there they were the guests of Miss Nellie Utick.

Miss Nellie Gordon who has been visiting in Cincinnati has returned here. Mrs. Julia Gordon and daughter, Nellie expect to go to house keeping in a few weeks.

On account of the Jamestown W. C. T. U. Institute, it was decided to change the date of the regular meeting of this society till May 18. A full report of the Institute is expected.

Mrs. Charles Ervin of Xenia, Mrs. J. M. Bull of Springfield and Effie Barber of this place leave next Monday for Topeka, Kansas, where they will attend the annual meeting of the Women's Missionary Society of the U. P. church.

The 16th and 17th of May the Greene county institute will be held at Jamestown, O. We are sure from the very attractive program that all who attend will be benefited and entertained. The evening session will consist of a gold oratorical medal, and a male quartette contest, given by some of the best talent in the county.

A public meeting has been called at the Mayor's office for this evening to organize a Board of Trade or a Commercial Club. The meeting has been called by Dr. J. O. Stewart, ex-president of the old Board of Trade.

The Oration.
"I have a theory that all three eloquence comes from the tail of the coat, and if we made an orator change into a short coat he would become deaf as a dumb." Paraphrase of Mr. Dooley.

Compulsory Enthusiasm.
A Silurian court, recently sentenced to prison for two months a man who had failed to cheer the Kaiser during the military maneuvers.

CASTORIA

Any Woman Knows THAT

CLOTHES must be boiled before they can be made perfectly clean. Any woman knows THAT. You can soak and you can rub - but you can't get the dirtiest washing absolutely clean and white without boiling them with

Maple City Self Washing Soap

This wonderful Soap does the work like magic - without anything in it to eat the clothes or the hands - without the least fading of colors or shrinking of woollens. Maple City Soap has made washing a fine art - an easy and pleasant task, by rendering rubbing and scrubbing unnecessary. For woodwork, paint, windows and dishes it is without an equal. You can't keep house right without it. Big, white, double-lasting cake, 5 cents at all grocers.

MAPLE CITY SOAP WORKS,

A Live Wire

Every nerve is a live wire connecting some part of the body with the brain. They are so numerous that if you penetrate the skin with the point of a needle you will touch a nerve and receive a shock - pain it is called. Aches and pains come from a nerve, the more prominent the nerve the greater the pain. When the pain comes from a large nerve it is called Neuralgia.

whether it be the facial nerves, or the heart, stomach, sciatic or other prominent nerve branch. To stop pain, then, you must relieve the strain or pressure upon the nerves. Dr. Miles' Anti-Pain Pills do this.

"I suffered intense pain, caused by neuralgia. I doctored and used various medicines without getting relief until I began taking Dr. Miles' Anti-Pain Pills. They did me more good than all the medicines I ever used. They never fail to cure my headaches, and their use never leaves any bad after-effects."

MISS W. M. DECKMAN,
27 W. 4th St., Erie, Pa.

Dr. Miles' Anti-Pain Pills are sold by your druggist, who will guarantee that the first package will benefit. If it fails, he will return your money. 25 doses, 25 cents. Never sold in bulk. Miles Medical Co., Elkhart, Ind.

DO NOT OVER-LOOK THE GASOLINE ENGINE

You make a mistake if you think you can run your farm economically or profitably without a gasoline engine. Do not overlook the possibilities of a gasoline engine for farm use. A gasoline engine will furnish power to do the hundred and one little jobs about your farm which make farm work drudgery if hand, wind or horse power is used. The gasoline engine is so reliable, so simple, so safe, and so economical to operate that you can not afford to overlook it. Of all the gasoline engines on the market, the I. H. C. engine stands first because it is designed by men who understand the requirements of a practical and cheap farm power.

I. H. C. engines are made in sizes from 2 to 20 horse power in vertical or horizontal stationary and portable types. We have one that will fit your needs. Call on us and we will gladly explain.

C. N. STUCKEY,

Your Chance

Trouserings at Half Price.

For the next few days we will place on sale a limited number of Trouserings at half their actual value. The patterns, while not this season's, are all very desirable and you will not doubt find some one in the lot that will strike your fancy. As we have already said the lot is limited, so if you wish to get in on the bargain, come in early. Prices are required.

\$4.00 and \$5.00

In this season's styles we are showing the greatest assortment that you have ever had the opportunity of seeing in this city, from \$5.00 up to the finest. If you want the best that you can possibly get in style, fit and tailoring, come and let me take your measure. New Suitings and Top Coatings \$17.00 Up.

Willenborg Bros

This Can of Paint and a Brush

Are the only requisites necessary for a first class job of painting. A can bearing this label contains the best ready mixed paint made.

This paint is made by expert paint makers who have devoted the best part of their lives to the study and manufacture of high grade paints.

HANNA'S GREEN SEAL PAINTS are today recognized by most first-class painters as the best and most economical paints they can buy, and many of them use it on all their work.

Hanna's Green Seal Paints are for Sale by Kerr & Hastings Bros.

YOUR APPETITE

If your appetite is poor, eat meat. To tempt your appetite and nourish the system our choice meats are not excelled by anything. The weak and the strong, the small and the hearty eater alike enjoy them.

Want your moustache or beard a beautiful brown or rich black? Use BUCKINGHAM'S DYE

NOTES OF FARMERS.

A farmer should decide which he wishes to produce from the poultry yard, poultry or eggs, says Charles R. Main, in a discussion in the Iowa Homestead. In making this decision, the market he expects to supply is the most important thing to consider. If his market calls for poultry he should help to supply by growing the kind of poultry making the most meat of the quality. If the demand is better for eggs, he should keep the breed of poultry producing the most eggs during the year. If a general market is to be supplied the farmer might keep two breeds of poultry by giving them the proper care and in no case allowing the breeds to cross.

The slightest degree of filth in a milk can will injure the milk, and it is possible to have portions of the former milk contained in the cans to be left over, despite the greatest care. First wash the cans in tepid water, to which a little powdered borax has been added, and then scald them with boiling water, adding borax again. Rinse with clean cold water, and place them where dust can not reach them. Borax may be used freely with advantage in all water used for milk pails.

Farmers find many curious things happening around them every day which they cannot understand, and nobody, even the scientists, can explain for them. Why, for instance, does a horse strain a drink of water through its lips? Why does a cow poke her entire face into the brush, eat all she can, then lick her nostrils with her tongue? Why does the chicken drink exactly opposite to the horse or cow, having to hold its head up when it swallows a drink of water? Then note a pigeon, of the same feathered family, as it keeps its bill immersed while drinking. But a dog laps the water in its mouth. This animal, moreover, never chews its food, while the cat, his companion household pet, always chews thoroughly before swallowing. How is it that falling to masticate does not hurt a dog while in case of all other animals, including man, unchewed food causes dyspepsia. Why has a cow a udder and why can a horse shiver its hide to drive away flies? These questions and many more like them that might be asked will show that we are far from knowing it all.

This is one of the most critical months in the year and all fruits need special attention and spraying. Spray apple and plum trees as soon as blossoms fall and again one week or ten days later with Arsenate of Lead.

Spray cherry trees in the roadway but use one-half strength Bordeaux. Treat pears, quinces, currants and gooseberries at the same time with Bordeaux only.

Spray other small fruits once, as soon as the blossoms fall, with one-half strength Bordeaux. Arsenate of Lead should be added to the Bordeaux if insects are eating the foliage or fruit.

Spray grapes with full strength Bordeaux before blossoms fall, and if the berry moth caused injury last year, add Arsenate of Lead.

Treat seed potatoes with Formalin. Carefully examine all peach trees for borers, dig them out and destroy them.

If plant lice or other insects are found which suck the sap from the branches or foliage, spray immediately with Kerosene Emulsion or diluted Whale Oil Soap mixture. This must be done before the leaves become curled or the treatment is likely to be ineffective.

In a letter to the Xenia Gazette Mr. D. S. Collins, Vernon, Texas, has the following to say concerning the present presidential discussion:

Now please be good from this time on, get straightened away for the good old summer time and if you're going to have that primary to settle matters between Seelye and Senator Foraker as to the Ohio endorsement, don't forget that in the future you will have Texas to deal with. I'm no politician particularly, but it is very apparent that Texas would not go Republican in case Joseph Benson should land the nomination. Had you ever thought of that? Good old Democrats here swear by Teddy now a days and as they have split up on whether or not Bailey did represent them or the Standard Oil Co., it behooves you Buckeyes to not add insult to injury by turning down the one whom all the South recognizes as Roosevelt's policy propelled in the future. We do not fear what Ohio Republicans will do when they have manhood enough to elect a good Democrat by 45 thousand majority to the Governorship of the state. It's the best Republican who can scratch a bad party nominee. Only a slave drags along after his chain to the party chariot through mire and filth. American citizenship is rising to a greater eminence in the tidal sweep of political independence.

The Long-Lived Orchid Flower. Even when orchid flowers are fully developed they may remain uncut upon the plant for two or three weeks without apparent deterioration. This gives them a manifest advantage over most flowers that have to be cut immediately upon, or even in advance of, reaching full maturity—Country Life in America.

JACOB KANY,
 The Leading Merchant Tailor, Xenia, Ohio

Science has developed something infinitely better than the old-style wrap or clamp.

"PITTSBURGH PERFECT" FENCES ARE WELDED BY ELECTRICITY.

This is the modern method of construction. Years of life are added through the elimination of serious fence defects.

A WRAP holds moisture, cracks the galvanizing and allows the water to attack the bare wire. A small amount of displaced galvanizing so "PITTSBURGH PERFECT" REINFORCES THE PROTECTION AGAINST RUST AT THE ELECTRICALLY WELDED JOINT, examine the joint.

STAYS CANNOT SLIP. They are always just where they were put. Stay and strand wires become one piece when the fence is made. The fence is like a solid sheet of perforated steel.

Every Rod is Guaranteed Perfect.

Don't allow your prejudice in favor of the rapidly declining and now antiquated methods you have heretofore known, to warp your good judgment.

"PITTSBURGH PERFECT" FENCES REPRESENT PROGRESS, because hundreds of thousands of dollars worth of standard material is daily welded by electricity.

The hoop on the average sugar barrel in the isolated country grocery store is an electrically welded product.

If your wagon was made in a large factory, its tires were welded by electricity.

You will find electrically welded hoops on ice cream freezers and washing machines, on many tubs and buckets. Examine them.

"PITTSBURGH PERFECT" fences are made by this modern, simple and marvelous process, producing "THE WELD THAT HELD."

MR. FARMER: LISTEN, NOW. Every agent handling "PITTSBURGH PERFECT" fences is authorized to guarantee this: That the wires are not injured at the joints. That the fence is as securely attached to the ground. That the fence will not separate from the strands. That the fence is all right in every particular.

Could you ask any more definite protection? Your complete satisfaction is absolutely assured.

C. M. CROUSE.

John T. Bourke, political writer for the Cleveland Leader, who is making a canvas of the state by counties to discover the sentiment of the people in the Foraker-Taft contest, was in this city last Tuesday and Wednesday and called on a large number of our people. He represents a paper that is supporting the War Secretary and was looking for Taft sentiment and evidently found some from his report on this county. While his size, up of the local situation is not exactly as we would make it his article is reproduced for the readers and is as follows:

Unless our people decide at a direct primary vote who is their choice for the Republican Presidential nomination, the Sixth Congressional district of Ohio will probably send contesting delegations to the Republican National convention next year as it did in 1904.

Another finish fight can only be avoided in this district by retirement from the political arena of one of the factions. If one retires it would be that which bears the name of Hildebrandt. The election of a Democrat to Congress in a district normally Republican by 5,000, it was believed for a time, would lead to the restoration of party harmony. But the indications are that there will be no harmony. The element known as the Scroggy faction is accused of knifing Hildebrandt at the polls, and the Hildebrandt leaders purpose that their faction shall name the next candidate for Congress. The nominee has not been stated, but he will not be Hildebrandt. The Scroggy men must accept the situation or else hold a rump convention.

Each faction has a congressional committee. The Hildebrandt committee is to meet in Cincinnati, within a few weeks to map out its plans for the next year. The Hildebrandt faction claims to control the Republican organizations in Clermont, Brown, Clinton and Warren counties, giving the Scroggy faction Highland and Greene counties. New Election boards are to be appointed next July, and the Hildebrandt leaders claim they have eight of the twelve members of the congressional district Election board. With this board thus divided, the Hildebrandt faction expects to have its candidate for Congress recognized. The Scroggy faction will therefore be compelled to eliminate its candidate from the situation or make a fight that cannot but effect the Presidential situation in this district. In the national convention of 1904, the Hildebrandt delegation, with the vote of Myron T. Herrick, then governor, was seated, over the

Scroggy, delegation, which was backed by Senator Foraker. Should history repeat itself and the factions line up next year as three years ago Senator Foraker might be a candidate for the Presidential nomination with the delegates from the district in which he passed his early life opposed to him. Hillsboro News Herald.

LAHORE, British India, May 4. The Hindu outbreak at Rawalpindi appears to have been anti-Christian, as well as anti-European. The mission buildings were the special object of the fury of the rioters. An attack was made on the American mission church, the mob burned the Young Men's Christian association hall, looted and damaged the houses of the missionaries and violently assaulted native Christians in the streets. A riotous outbreak under the leadership of Hindu students has occurred at Amritsar, about thirty miles from Lahore.

Rawalpindi is a station of the United Presbyterian Church of North America Board of Foreign Missions and was established in 1864. In 1901 there were three missionaries.

The place is a large station of the Women's Missionary society having one missionary, two native workers, six out stations, six places of worship and one Sunday school.

Nagley Bros.

Dennis J. Carroll, of Cincinnati, to R. T. Nisinger, 10 acres in Bellbrook and Sugar Creek tp., \$1.

The Fairfield commencement will be held Friday evening May 10th. Commencement at Bellbrook will be held this same evening.

The growing of fruit demands labor at the proper time, and considerable work is done before spring opens. Where growers have combined to keep insects and parasites in check the result has been beneficial. If the labor and cost of fertilizers must be considered it is safe to assert that fruit growers derive larger profits from raspberries and blackberries than many of those who raise them. It is only when picking and harvesting the crop that the real labor is performed. After such crops are harvested some field-revels but little care and cultivation, and it is seldom that manures or fertilizers are applied, though the strawberry is treated differently. Enterprising fruit growers maintain that it pays to give blackberry and raspberry canes good cultivation and to apply fertilizers liberally, as the increased crop of berries and vigorous vines more than pay the expense. During periods of drought the grassy rows of canes must compete for moisture with intruders, and it often happens that a dry period sets in just at the time the berries are ripening, and when moisture is greatly needed. When the soil is clear of grass and weeds, and the surface of the ground loose from lack of moisture is greatly reduced.

Athlete's Odd Mishap.
A Brooklyn athlete, who has been successfully jumping the loop on a bicycle for several years and who never sustained the slightest accident, nearly broke his neck while wheeling his baby in the perambulator. He slipped on a banana peeling on the sidewalk in front of his home.

First Principle of Life.
If you would have contentment, peace, joy and success give religious care to the physical person.

European Cooking Schools.
Germany and Austria have about 150 cooking schools. A four years' course is necessary before a diploma is granted. Most of the hotel chefs have diplomas from these schools.

CEDAR POINT.

Ohio's great summer pleasure health resort, Cedar Point-On Lake Erie will open for the regular season of 1907 on Saturday, June 8. This will be pleasant news to the great army of pleasure seekers who annually visit this beautiful spot for recreation and rest.

The remarkable and sustained growth of Cedar Point has marked an epoch in the history of American summer resorts. Cedar Point today is the largest and most popular summer resort in the world under one management, a fact proven from the records, which show that this great resort was visited last season by more than a million pleasure-seekers, drawn alike by its central location and accessibility, the congeniality of its habits and the countless attractions to be found nowhere else in such profusion and of such a satisfying nature.

One of the most successful business is to entertain the public and to cater to the comforts, health, pleasure and happiness of the crowds who from everywhere come to it every summer. From a quiet, beautiful wooded peninsula, separating the blue waters of Lake Erie from peaceful Sandusky Bay, Cedar Point has grown in a few years into a modern summer resort with a property value of \$5,000,000 with accommodations for 50,000 people daily and the largest and best hotel facilities on the Great Lakes.

More words at best convey but a faint idea of the beauties and resources of this beautiful garden spot of nature. Cedar Point's famous bathing beach is seven miles long and beyond all question the most perfect in the world. The hot-to-be-found elsewhere pleasures of Cedar Point appeal strongly to all classes of people. Fashion's talk somewhere, however, there's too come those to whom summer pleasure is a real tonic, and with these come the crowds who know the fame of Cedar Point's great hotels, the moderate rates, famous cuisine, perfect service and appointments. You have but to choose your pleasure and it is found—bathing, boating, bowling, fishing, sailing, rowing, woodland rambles—all are here, contributing their share to the full life savor of a care free life. Idle days, if you will or endless enjoyment of the amusements you like best in your rest-time. At night the dash of the hall-room or the mighty Coliseum with its manifold pleasures; a visit to the brilliantly illuminated amusement section with its wonderful devices and animated scenes; a row on the placid moonlit water; a stroll along the great Board-Walk; and now and then just a little alone on the beach in the sweet-aided dark under the glow of a wonderful Cedar Point sky listening to the ceaseless surf as it washes the shore at our feet. And so for every minute of your stay a surfeit of pleasure you may best enjoy and which you may select at will.

More words at best convey but a faint idea of the beauties and resources of Cedar Point. A beautiful illustrated souvenir, in colors of Cedar Point has just been issued and will be sent postpaid on request by addressing G. A. Boeckling, Sandusky, O.

Norfolk, Va.—One of the most enthusiastic of the visitors on opening day at the Jamestown Exposition, was Ex-Governor David D. Francis of Missouri, who was at the head of the St. Louis exposition.

"I am delighted," said he, and there should be no room here for any man to doubt the most promising prospect and gratifying success. I had heard and read of the plan and scope of the Jamestown Ter-Centennial celebration, but I had no idea you had anything like what I had. Success is assured. There is no reason for discouragement in the fact that some of the buildings are not completed, some of the exhibits are not installed and that some of the concessionaires are little belated getting their attraction ready. What exhibition has been entirely ready at the opening? How many have had to postpone their opening?

I admire the pluck of the Virginians who have made this exposition what it is going to be. Apparently there has been no thought of the possibility of a postponement, and I say that men in charge are worthy of the greatest praise and credit for the manner in which they have gone ahead in the face of aggravating and unimpeding conditions. The weather I am told has been something of a record breaker for this season of the year. That being the case it is not difficult to understand the delay.

"There is no reason as far as I can see why this exposition should not be completed in four weeks. From what I know of exposition building I would not hesitate to undertake the task in that time and I am sure that the capable men you have here can do it much better than I could. Do not let the delayed construction worry you. It will be all right in a few weeks and by that time I am sure that the delayed installation will be as far advanced as is necessary to call the whole exposition complete. In the mean time the beautiful grounds, the naval and military features and the many buildings and exhibits that are already complete will satisfy most visitors.

"The beautiful land-scapes effects, and possibilities, together with the water-front, which no other exposition could have, struck me at once, and you have here the liberal support of the government and that counts for a great deal.

There is no doubt that this exposition is a national and international affair, and that its scope will be just what its organizers planned for it. The attraction is one that I am sure will bring enormous crowds, and I see no reason why it should not be materially and otherwise than it is expected to be.

Gov. Francis came to the exposition with a party all of the members of which were emphatic in their praise as was he.

The Index-Republican, the official Republican paper of Logan county, has declared for Taft for president. The announcement says that two-thirds of the Republicans in Logan county are for Taft.

Steubenville For Taft.
The Republican city committee of Steubenville has endorsed the candidacy of William H. Taft for the presidential nomination. This action was taken unanimously. The resolution is as follows:

Whereas, A contest has developed in this state between the friends of President Roosevelt and Senator Foraker, and believing that a very large majority of our constituents favor the policies of our president, and that said policies will be carried out faithfully by Secretary Taft; therefore, be it

Resolved, by the Republican City Committee of Steubenville, Ohio, That we most heartily endorse the candidacy of Hon. William H. Taft for president of the United States, and pledge ourselves to exert every honorable means at our command to assist in securing for him a solid delegation from this district.

Passed unanimously (all members present in regular session), this 6th day of April, A. D. 1907.
S. B. MCCOY, Chairman.

A Roosevelt Endorsement.
In forming an opinion as to the relative strength of the two men, account will be taken of President Roosevelt's popularity. He is stronger with the people than ever before, and while he has not indicated, and probably will not indicate, a choice, the important part that Taft has taken in the affairs of the national administration, and the fact that he is in perfect harmony with Roosevelt policies, will be as convincing to the voter of the president's wishes as if a personal endorsement had been given.—Toledo Blade.

This great stock medicine is a money saver for stock raisers. It is a medicine, not a cheap food or condition powder. Though put up in sugar form, than Theodor's Black-Draught, renowned for the cure of the digestion troubles of persons, it has the same qualities of invigorating digestion, stirring up the torpid liver and loosening the constipated bowels for all stock ailments. It is carefully prepared and its action is so healthful that stock grow and thrive with an occasional dose in their food. It cures hog cholera and makes hogs grow fat. It cures chicken cholera and rump and makes hens lay. It cures constipation, distemper and colds in horses, mules, in cattle, and makes a draught animal do more work for the food consumed. It gives animals and fowls of all kinds new life. Every farmer and raiser should certainly give it a trial.

It costs 50c a can and saves ten times its price in profit.
Prepared, E. A. March 23, 1904.
I have been using your Black-Draught Stock and Poultry Medicine on my stock for some time. I have used all kinds of stock food but I have found that yours is the best for my purpose.
J. S. HANSON.
